

Transport Minister Visits Master Pingtung Plant and Shows Utmost Affirmation and Support

On February 5th, Minister of Transportation and Communications Wang Kwo-tsai led a delegation including Department of Railways Head Lin Fu-shan, Ministry of Transportation Senior Specialist Chao chin-wei, Highway Bureau Director Chen Wen-jui, Deputy Director-general of Institute Transportation, MOTC Wang Mu-heng, VSCC CEO Chou Wei-guo, to visit the chassis and body plants of Master Transportation, who is a member of electric bus national team, located in Pingtung. They also had a test-ride on the latest electric intercity coach.

After listening to a presentation on the achievements and future plans from Master Chairman Wu Ting-fa, Minister Wang Kwo-tsai expressed his utmost affirmation and support. In the new year, Master will continue developing electric buses, striving to support the policy of Full Electrification of Buses by 2030.
